## RECOMMENDATIONS PORTFOLIO

### CYBER GITHUB PROJECT

### CYBER HALLOWEEN PODCAST

## Cyber Security

BAS, Offensice Cyber, MITRE, SD-WAN, SASE, Zero Trust, AI/ML, SIEM, Endpoint Protection, DLP, IAM, SWG, CASB, FWaaS, Network Firewalls, Container Security, CSPM, XDR, Vulnerability Management, IDPS, MDR, Data Security, Micro-Segmentation, API Security, Threat Intelligence, Encryption, DRaaS, PAM, Backup & Recovery, IoT Security, DevSecOps, Application Security, ATP, Behavioral Analytics, MDM, MFA, Orchestration & Automation, Data Governance, Digital Forensics, Insider Threat Management, DNS Security, RBI, Risk-Based Authentication, Compliance, UEBA, OT Security, UTM, Policy Management, CWPP, DORA, NS2, CRA, GDPR. Palo Alto, Sophos, CheckPoint.

Networking: Cisco, Juniper, Huawei, Ciena, Mikrotik, Ubiquiti, HP, D-Link.

## Artificial Intelligence

OpenAI, Google Gemini, Antropic, Lliama

API calls, Python SW using multiple LLM's. AWS Bedrock

## Work experience

2016 - Today Princial Technical Architect in CYBER, CLOUD , Digital Transformation & AI

[Stars4Business OU](#)

**Senior Executive Transition & Transformation Freelancer Director/VP Level** in Western Europe around Open Source & Innersource, **Cloud AWS & Microsoft Azure**, Telco and IOT. **Expert in CI/CD, Agile, DevOps & Cyber.** Experience in Multi Million Digital & Cloud Transformations to GCP, Azure and AWS utilizing CAF & Building CCOE while focusing on the 5rs and Micro Services (EKS, AKS).

**SW Development & Arhitecture design of New Open Source Endpoint Cybersecurity service & product Cybergod** (End Point developed on C# & Python for Windows 10/11, other parts of the product/service will run in the cloud using serverless and Scala akka framework) [Github to Project](#)

**Managing advanced cybersecurity projects for Confidential Offensive Cybersecurity company in Vietnam, DRC, Kazakhstan, and Uzbekistan** involves deploying offensive cybersecurity tactics, including 1-click methods and WiFi infiltration, alongside comprehensive DPI initiatives in the DRC. These projects aim to enhance national security, intelligence gathering, and monitor internet traffic across networks, requiring expertise in exploiting digital vulnerabilities and managing complex technology deployments for strategic objectives.

**AIHAWK GENAI Automation Project**, N1 Linkedin Automation based on GENAI. Responsibilities: Technical Support Director responsible for community support (280k B2C users using GENAI: Google Gemini, OpenAI, Lliama, Antropic. OS: Linux, Windows & Mac), Issues replication, Technical Project Management with SW Devs, Product (Bugs, Features, Product Roadmap etc...) **MEGA VIRAL PROJECT: [BUSINESS INSIDER](#), [MSN](#), [404MEDIA](#)**

**AWS N1 Cloud in the world - Transition & Transformation Director** Basically COO of the account Responsible for over 20+ different Digital Transformation Programs for Telefonica Germany. Project Size Above 100ML EURO **Responsible for RADICAL IT TRANSFORMATION PROGRAMS IN TELEFONICA GERMANY FOR B2B and B2C Applications.** Responsible for Solutions in AWS based on Cloud services such as: CCaaS, Salesforce Integration, GenAI, Oracle Exit, DC Exit, Kubernetes Optimization, FinOps Optimization, AI/ML solutions, Big Data, Training Programs, Migrations. Including Cloud Security & compliance (GDPR, Confidential computing, Identity Management, Simulation of Security incident response, Trusted Advisor security recommendations, AWS CloudTrail and implementation of partner Cyber solutions)

**As a Project Manager at Airline company, I led the strategic planning and implementation of a comprehensive Cloud Adoption Framework and Identity and Access Management (IAM) strategy with Telindus Advisory Services based on Azure and MS IAM.** My role encompassed orchestrating project phases, managing cross-functional teams, and ensuring alignment with business objectives. I facilitated key discussions on cloud strategy, operational assessments, and cloud infrastructure modernization, successfully laying the groundwork for Luxair's transition to a secure, efficient, and agile cloud environment. Automation of MS Windows deployment for Win11 PC's using Chocolatay, Powershell & MaaS

**TOSCA LTD Post M&A Technological Transition & Transformation Director** (3 companies IT into single plane of glass) Application Digital transformation migration to Microsoft Azure, consolidation of 3 ERP systems and long term migration to Microsoft Dynamics + IOT Industry4.0, Automation of MS Windows 11 deployment for 7k PC's using Chocolatay, Powershell & MaaS

**As Project Manager, I led largest DACH Electronics Retailer strategic migration to Google Cloud Platform, enhancing IT agility and customer experience, streamlining cloud readiness and content creation**

**Multi Million Technological Transition & Transformation projects in leading FSI's (Banks & Insurance)**

**ENEA - Senior Technical Program Manager responsible for 24ML project Digital Transformation from Oracle to PostgreSQL(50+ million subscribers) for DT.**

**NetApp - Cloud & Transformation Executive Architect**

## Skills

### Cloud, Server & Storage Technologies

**AWS:** EC2, Lambda, S3, RDS, DynamoDB, Redshift, SageMaker, Kinesis, Elastic Beanstalk, Fargate, CloudFront, VPC, IAM, GuardDuty, CloudWatch, Glue, EFS, Backup, Aurora, EBS, Snowball, DocumentDB, Keyspaces, Shield, CloudTrail, OpsWorks.

**Azure:** VMs, App Service, Blob Storage, Azure SQL, Cosmos DB, Synapse, Machine Learning, Stream Analytics, Service Fabric, Container Instances, CDN, Active Directory, Security Center, Logic Apps, Azure Arc, Batch, Functions, Monitor, Key Vault, Redis Cache, Data Lake, Site Recovery, Event Grid, Front Door, Data Factory.

**GCP:** Compute Engine, App Engine, BigQuery, Cloud Storage, Cloud SQL, Spanner, AI Platform, Cloud Functions, CDN, VPC, IAM, Security Command Center, Monitoring, Dataflow, Firestore, Pub/Sub, GKE, Persistent Disk, **Redhat** (Ansible, OpenShift, Openstack), **Canonical** (MaaS, Juju, Openstack, Kubernetes), Huawei (FusionSphere, FusionStage), Rancher, Terraform, Cloudfoundry, Vmware. Servers: Dell, Huawei, Supermicro. Storage: NetApp, EMC, Huawei, Hitachi, Fujitsu.

### Project Management

Agile Project Management Scrum, Kanban. Telco Project Management. Cloud Project Management. Waterfall Project Management. Software Project Management. Disaster PM Experience. Jira, Confluence, Gitlab, Azure DevOps, Monday.com, Asana

### Technological Leadership

Experience in Innovation Projects above 100ML USD **inside AWS AMAZON**

Experience in Cloud Transformation projects above 100ML USD **inside AWS AMAZON**

Experience as a Founder of 3 boutique IT consulting companies.

Experience as Technological Director in two biggest Open Source Cloud Leading companies in the world: Redhat and Canonical.

Experience as Technological Strategy Director. Senior Product Management Experience in Telco & Cloud Products.

Innovation Director Experience. Digital Transformation & Senior Change Management Director.

Experience as Technological Director in 4 Consulting System Integration companies: HUAWEI, LR Group, S4biz, SIA Enterfreelance

**Experience as Senior Technologist in TOP3 ISP in the World: COGENT AS174**

### Team Management

## NETAPP REFERENCE LETTER

**REDHAT - N1 Open Source Linux Company in the World. Technological Transition & Transformation Director Responsible for DT group and Orange 26 projects (vEPC, vIMS, SDN, SDWAN, OpenShift Kubernetes, IT clouds, Openstack).** **REDHAT REFERENCE LETTER**

**Canonical Ubuntu Linux-** Director position. Responsible for Technological Partnerships, Sales and Business Development to Telcos, MSPs, Defense and Enterprise.

## CANONICAL Reference Letter

**Ennecuum** - CBDO responsibilities. Building Sales and Investment strategy ground up for Blockchain startup from scratch.

**Cyber: Cybeats IOT Advisor & Business Development**

**ERP Transformation: Oracle, SAP, JD Edwards, MS Dynamics**

2014 - 2016 IT Solutions Sales Director

## HUAWEI

Solutions Sales Director Selling IT/Datacenter/OpenStack Cloud/NFV/PaaS/BigData solutions and designing solutions for key Carrier Telco customers. Virtualization of Mobile and Fixed Telecom networks.

## Reference Letter

2009 - 2014 Founder Transition & Transformation Leader

## SIA ENTERFREELANCE

Vendor representation in EMEA. Sales & Business Development, Presale 2 PO, Project Management, Disaster Management. (Kofax, BTI, Mobotix), Cyber(Elbit Cyberbit). ERP Transformation: Oracle, SAP, JD Edwards

**Cogent Communications** - Sales Engineering, for Tier1 ISP number 3 in the world, Number 3 in EU and Number 3 in USA. (DWDM, IP Transit, MPLS, SDWAN, Cloud, Data Centers)

2007 - 2009 Senior Delivery Project Manager & Presale Manager

## LR GROUP Angola Africa

**Technological Transition & Transformation Director** Multi Million Projects in Africa. (50M USD Wimax ISP, 60M USD Spectrum Monitoring Transformation for Ministry of Telecom Angola)

2005 - 2007 Technical Manager Verint Cyber SIGINT

## Verint Systems

- Managing Site reliability Engineers and integration activities SIGINT project delivery for law enforcement agencies.

2003 - 2005 Technical Country Manager - Local CTO

## D-Link

Building Technical expertise of local office in Israel from scratch. Creating Presale & Customer Success departments and scaling the business.

## Education

2021 - 2022 AWS Certified Cloud Practitioner

## AWS

2000 - 2003 B.Sc in Computer Science

## Champlain College

1995 - 2000 Navy Officer Practical Engineering Degree in Marine Electricity

## The ORT Ashdod Technological School for Naval Officers

Experience in Managing large teams of international stakeholders in Africa, Taiwan, China, India, Sri Lanka and Eastern Europe. 10-40 team members. Developers, DevOps, QA, Field Engineers, Architects, Support , Project Managers, Product Managers.

## Blockchain

Co-Founder & CBDO of Enecuum protocol

Co-Founder of E-Ticket4

Head of Platform for V-Bank Munich - created investment platform for institutional investors (Firebloccs + Avaloq)

## Programming

Javascript, HTML, Node.js, CSS, Java, Kotlin, C#, Python, Go, Scala, Rust., Powershell, Bash

Jetbrains, Visual Studio, Vs Code

## Portfolio
