AWS · Azure · GCP · Kubernetes (EKS/AKS) · Rancher · OpenStack · Edge · Terraform · Ansible · FinOps · CAF / CCoE

AI & Automation

LLM Agents / Tooling · OpenAI · Gemini · Anthropic · Llama · AWS Bedrock · GenAI Automation · Python

Leadership

Enterprise Sales · MEDDPIC · Strategic Accounts · Deal Leadership · Program & T&T Management · Executive Engagement · Product Creation

PROFESSIONAL EXPERIENCE

Cyber Security Client Partner · Colt Technology Services

Feb 2026 – Present · Frankfurt, DACH

Drive enterprise growth across Germany, Switzerland & Austria through Network & Cybersecurity transformation (SD-WAN / SASE / SSE). Matrix responsibility for 35+ Account Executives, advising CIOs, CISOs and executives from discovery to close.

- Managed enterprise Network & Cybersecurity transformation projects (SD-WAN/SASE) for critical infrastructure clients in the DACH region, acting as the prime customer contact from discovery to close.
- Orchestrated cross-functional project execution, coordinating Sales, Product, Delivery, and partner teams (Fortinet, Zscaler, Cisco) to build and deliver winning, secure network solutions.
- Drove operational performance and financial forecasting through the creation of board-ready models, ensuring projects met margin and contractual commitments.

Founder & Principal Developer / T&T Director · Stars4Business OÜ (S4biz)

2016 – Present · EU

Founder-led technology consultancy and product studio spanning cloud transformation, edge and cybersecurity.

- Directed the global, 10,000+ node rollout of critical edge infrastructure for a major automotive client, managing deployment across 140+ countries with a focus on secure, containerised applications.
- Led technical support and project execution for a viral, large-scale AI project (280k+ users), ensuring reliable delivery and operational performance.
- Delivered complex, high-stakes technology programs for government agencies in national security and intelligence, with a focus on risk and compliance.

Transition & Transformation Director (account COO) · Amazon Web Services — for Telefónica Germany

Germany

Owned 20+ digital-transformation programs for Telefónica Germany, >€100M scope, B2B & B2C.

- Owned and managed a portfolio of 20+ concurrent digital-transformation programs with a >€100M scope, driving migrations, cloud adoption, and infrastructure modernisation from tender to completion.
- Executed projects in collaboration with engineering, sourcing, and finance functions, focusing on budget, technical scope, and operational planning to ensure on-time delivery.
- Embedded security and compliance (GDPR, DORA) into all project lifecycles, implementing robust risk management frameworks for critical infrastructure.

Post-M&A Transition & Transformation Director · TOSCA LTD

EU

Consolidated three companies' IT into a single pane of glass on Microsoft Azure (end customer: ALDI Group).

- Led the post-M&A consolidation of three companies' IT infrastructure into a unified platform on Microsoft Azure for a major retail group, managing the full project lifecycle and resource planning.
- Merged complex ERP systems and delivered IoT/Industry 4.0 solutions, ensuring technical scopes were met and customer commitments were fulfilled.

Project Manager — Cloud Adoption & IAM · Luxair (Airline)

Luxembourg

Led Cloud Adoption Framework and Identity & Access Management strategy (Azure, MS IAM) with Telindus Advisory Services.

- Project Manager for Cloud Adoption Framework and Identity & Access Management strategy, managing implementation projects with a focus on secure, compliant infrastructure.

Senior sales leadership for enterprise IT and data-centre solutions.

- Senior sales and project leadership for enterprise IT and data-centre solutions, managing client engagements and project delivery in the technology sector.

Earlier Senior Technical, Sales & Leadership Roles · NetApp · Red Hat · Canonical · Cogent · Verint · Mobotix · D-Link · Bezeq International · LR Group

Two decades of cloud, open-source and cybersecurity roles for top-tier tech vendors and service providers.

- Accumulated over two decades of experience in technical, sales, and leadership roles, managing projects and programs for technology vendors and service providers with a focus on telecommunications, cloud, and cybersecurity.

EDUCATION
